

## SEND Policy

<b>Review Date</b>	September 2023	<b>Next Review by Date</b>	September 2024
<b>Reviewed By</b>	Deputy Headteacher		
<b>Approval by Governing Body</b>	Danuta Tomasz		
<b>Date Approved</b>	08/02/2022		

### Rationale

Every student at Pathways Education is welcomed and treated and valued equally irrespective of their identified SEND or the way in which it is manifested. The school is committed to providing effectively personalised curriculum and social access for all our young people.

### Aims

Our SEN policy and aims to:

- Set out how Pathways Education school will support and make provision for our students, of which all have an EHCP in place for their educational needs.
- Explain the roles and responsibilities of everyone involved in providing for our students with SEND.

### Legislation and guidance

This policy and information report is based on the statutory [Special Educational Needs and Disability \(SEND\) Code of Practice](#) and the following legislation:

- [Part 3 of the Children and Families Act 2014](#), which sets out schools' responsibilities for students with SEN and disabilities
- [The Special Educational Needs and Disability Regulations 2014](#), which set out schools' responsibilities for education, health and care (EHC) plans, SEN co-ordinators (SENCOs) and the SEN information report.

## Definitions

A pupil has SEND if they have a learning difficulty or disability which calls for special educational provision to be made for them. They have a learning difficulty or disability if they have:

- A significantly greater difficulty in learning than the majority of others of the same age, or
- A disability which prevents or hinders them from making use of facilities of a kind generally provided for others of the same age in mainstream schools.

Special educational provision is educational or training provision that is additional to, or different from, that made generally for other children or young people of the same age by mainstream schools.

## Roles and responsibilities

The headteacher and deputy headteacher will:

- Provide professional guidance to colleagues and work with staff, parents/carers, and other agencies to ensure that our students receive appropriate support and high-quality teaching
- Advise on the deployment of the school's resources to meet students' needs effectively
- Be the point of contact for external agencies, especially the local authority and its support services
- Liaise with potential next providers of education to ensure students and their parents are informed about options and a smooth transition is planned
- Work with the governing body to ensure that the school meets its responsibilities under the Equality Act 2010 with regard to reasonable adjustments and access arrangements
- Ensure the school keeps the records of all students with SEND up to date

- Work with the governing body to determine the strategic development of the SEND policy and provision in the school
- Have overall responsibility for the provision and progress of all our learners
- Have overall responsibility that all student's medical needs are met- including updating and reviewing the supporting children with medical needs policy.

Each class teacher is responsible for:

- The progress and development of every student in their class
- Working closely with any teaching assistants or specialist staff to plan and assess the impact of support and interventions and how they can be linked to classroom teaching
- Working with the Headteacher to review each student's progress and development and decide on any changes to provision
- Ensuring they follow this SEND policy

## Type of Provision

The school makes provision for young people who have acquired processing delays due to mild to moderate learning disabilities and who's mental and/or emotional health is at risk due to direct or indirect trauma (see Admission Criteria). The provision is transitional and therefore working with local schools to enhance the available mainstream provision to meet the individual Young People.

## Range of Needs Admitted

The majority of young peoples will have an Education, Health, Care plan. The young peoples are in the Mild difficulty's category, but will also have some have additional social, emotional need, for which a short-term special school placement has been recommended. Therefore, all students that attend Pathways Education have been identified as SEND and are supported as such. Furthermore, most students will have detailed support outlined within their EHCP's for each of the four areas of need: Communication & Interaction; Cognition & Learning; Social, emotional & mental health; and Sensory and/or physical needs.

## Admission Arrangements

Pathways Education meet all young peoples and their parents before a formal referral is made. An assessment must take place before a parent or LA can name Pathways Education on a young person's statement (see Admission Policy).

## Area Served

The majority of the Pathways Education population is from the Surrey, Hampshire and West Sussex area.

## Curriculum

All young people's follow a wide curriculum with programmes of study modified to meet the individual needs of the young peoples. In addition, the school provides the opportunity for developing social independence, self-confidence and personal worth.

## Specialist Resources

Young peoples have access to well researched facilities and environments that are conducive to best outcomes. This school has specialist curriculum areas equipped for Art, Music, Food Technology and Computing.

## School Organisation

The school's management structure consists of Governors, CEO, Headteacher, Deputy Headteacher Teachers, HLTA, LSA and external specialists contracted to meet needs.

## Home School Liaison

Parents are always welcomed as partners into the school and are communicated with using a range of methods, written and face-to-face. Termly Pathways Progress meetings are held with parents and students.

## Staff Training

The schools training plan considers current and future cohorts, with relevance to SEND support that staff may need training on but also new innovative practices or those shown to have a positive impact on SEND students. Governors also encourage all staff to undertake training in relation to the Pathways Education offer and in wider areas related to special education needs. Governors ensure that their own training is directly related to the school development plan priorities. All staff are appraised using our Practitioner Development annually by the Headteacher and Deputy Headteacher. The school operates an Equal Opportunities policy.

## Transition from Pathways Education

The transition from Pathways Education into an appropriate next setting is well considered, with details outlined in the Outreach and Transition policy.

## Monitoring arrangements

This policy and information report will be reviewed by the Headteacher every year.
